# STOCKS IN THE EAST

Bears Have Things All Their Own Way.

# WEAKNESS IS GENERAL

### STIFFENING OF MONEY RATE IS A LEADING FEATURE.

New York, Sept 15.-The same fac tors which caused the break in price at yesterday afternoon's stock marke continued in force today and mor business was done during the two nours of the Saturday short session that on any full day for months Liquidation was plainly in evidence and the bear operators added thei selling to the burden of the market in the confidence that lower prices would enable them to cover at a profit. The declines which they brought about in this way uncovered many stop-loss orders, which had been placed in the

Coolnts.

In People's Gas there is a large shor count already and the demand to over was large enough to keep that tock comparatively strong until near

New York and the tone is significantly firmer. Early in the week it became known that preparations had been made by a member of the British loan syndicate to ship gold this week to meet the installment due on subscriptions to the loan, but the volume of cotton bills brought on the exchange market broke the rate and frustrated the intention to ship gold. Apparently the British loan syndicate is under a contingent or implied obligation to acilitate gold shipments and with urther installments due or subscriptions in the middle of next month, and f November there will recur the posibility of gold shipments. Later in the week it was announced that New erman loan to the amount of \$20,000, oct.

The banks now hold \$29,856,175 in excess of the regular requirements of the 25 per cent role.

The Financier says: The two factors outlined in this paper's analysis of the New York bank statement a week ago, namely—the rapid expansion in loans and reduction in cash holdings in response to interior crop denands—have resulted in a further shrinkage of the surplus reserve of the clearing house institutions for the current six-day period. The loss in cash was \$4,954,200, traceable for the most part of shipments of currency by the banks, although they also lost in the routine operations with the sub-treasury. As an ordinary rule, the reduction in cash lowers reserve requirements to a certain extent by lessening deposits, but in the present instance loans expanded over \$7,000,000 and, as deposits actually increased \$1,002,500, the reserve requirements are something like a quarter of a million higher than a week ago and the surplus shows a fall of \$5,220,175, bringing the total to \$20,806,175. This, however, is \$25,500,000 over the excess at this time last year and about \$16,506,000 larger than in 1886. The receipts in the loan item were We Show Correct Garments in bath robes and house coats; new designs and patterns.

BROWN, TERRY & WCODRUFF CO., 166 Main Street.

# larger than expected and certify to the usual explanations, and cannot be accounted for by the operations of a few large banks. In fact, the increase is rather well distributed. Stock exchange business has not been heavy enough to call for the expansion, and commercial interests have shown only ordinary activity. International operations and business with the interior are probably responsible for the heavier totals. For all that, present loans are heaviest in the history of the clearing house, and deposits are nearly at a maximum, money rates are still easy, and show but few signs of hardening. A repetition of the current statement, however, will doubtless have a decided influence on the market.

Ogden Office, 524 Utah Loan and Trust Building. Telephone 14.

Ogden, Sept. 16.

### MORE SMALLPOX.

ever, will doubtless have a decided influence on the market.

The blacing of a new German loan at this center willn ot disturb the situation other than temporarily, as present arrangements do not favor an actual export of specie. The current baiance in favor of the Unified States is steadily growing from month to month, and will amount to much higher figures before the close of the year. The banks are still taking out new circulation, the week's gain having been \$372,000.

Two Cases Make Appearance In Ogden.

Smallpox is again making its appearance in Ogden, and strict quarantine measures are being taken by Inspector Moyes to prevent its further spread. A child of Peter Minnoch, 165 Twenty-third street, is down with the disease, and the house is under quarantine. measures are being taken by Inspector Moyes to prevent its further spread. A child of Peter Minnoch, 165 Twenty-third street, is down with the disease, and the house is under quarantine.

Officer Brown on Friday morning found a stranger sitting on the steps of the station with the disease in an eruptive state already on him. The man came from Salt Lake county, and said other members of his family had the disease. The authorities took him to the pest house, but refused to disclose his name. Dr. Condon says there is not enough smallpox to hurt, and his view is that there should be no publicity except the yellow flag and guard at the house. Washington. Sept. 15.—Today's statement of the treasury balances in the general fund, exclusive of the \$150,000,000 gold reserve in the division of redemption, shows: Available cash balances, \$136,079,-241; gold, \$73,719,522. New York, Sept. 15.—Exports of gold and silver from this port to all countries for this week aggregate \$869.115 silver bars and coin, and \$32,914 gold. The imports of specie were \$17,657 gold and \$16,340 silver. The imports of dry goods and merchandise were valued at \$3,810,668.
